200 mg Deca / 250 mg test e a week? I'm on a deca 200mg/test e 250mg a week cycle, for 10 weeks. Now i know this is low dosage and everything, and people say it's supposed to start kicking in about 3-5 weeks. Deca 200 / Test E 200 for Sale on 7Steroids. Buy Dragon Pharma Nandrolone Decanoate, Testosterone Enanthate from approved Dragon supplier. We stock only legit and original Deca 200 / Test E 200. Look the image below. A perfect combination of Deca-200, Test-600, D-Anabol 25 and Tren-75. It's like having the full benefits of Deca-200 x 7. Adding the Proper Diet to Your Deca 200 Cycle. Deca 200 is indeed a safe and efficient product, but you need to pair it with suitable nutrition to be able to obtain the right results. IMO 400 test + 200 deca will give better gains than 600mg test. Deca is not something that needs to be run at a high dose and around 600mg seems to be the effective ceiling, with

more not giving much more in the way of progress. #3. kimora25 and RS86 like this. Jan 24, 2015. as soldidspine stated, if it is your first time with Deca, 200mg with 500mg test will work for you. I tried Deca @ 200mg + 500 Test E this past winter for my bulker, and it was a great cycle! Gained 15lbs after 6 weeks. 08-Apr-2007, 07:10 PM #7. advanced-stealth. <https://sites.google.com/view/roids/pt-141-usa-cheap-anabolics-d7mn4fcxr>
