Anadrol - Mass water retention, Rise your Bp but good strength gains. Dosages between 50-200mg Max. Winstrol - Fatloss properties, More vascularity, Hardness, Can't really lift heavy because of the dried joints it gives you. Dosages 30mg - 50mg. Think I'll stay away from the anadrol. 4. Anadrol and Winstrol Cycle. This stack could be used as a bulking or cutting cycle. Winstrol will increase lean muscle gains, whilst drying users out and enhancing fat burning. This initially seems like a strange stack, because: Winstrol is a cutting steroid; Winstrol dries the body out, whereas anadrol often causes significant amounts of ... In this case with Winstrol and Anadrol I would dose 25mg of each....no higher. I don't see a problem with that, but 50mg of each is just being careless and reckless. You will trash your liver and lipids, and probably feel like shit doing that. I think NY ROBO uses Drol and Winny,

hopefully he'll pop in here. Both anadrol and winstrol will affect your liver in a negative manner. But proviron does not affect your liver in a negative manner. Thats why its better to use proviron instead of winstrol. If anything,, proviron is more anti estrogenic then winstrol is. Reactions: The ole man and EazyE. Jun 28, 2019 <https://www.colcampus.com/courses/68774/pages/dianabol-and-anavar-oral-cycle-anavar-uk-legal>
