Description. Buy Dianabol UK. Dianabol is the most recognized trade name for the drug methandrostenolone, also referred to as methandienone in many countries. Methandrostenolone is a derivative of testosterone, modified so that the hormone's androgenic (masculinizing) properties are reduced and its anabolic (tissue building) properties preserved. Dianabol 20 mg is an oral product that is often used by bodybuilders in a steroid cycle. The active substance of this medication is Methandienone. Original Dianabol 20 mg is produced by the world famous brand Dragon Pharma. Packing of this product includes 20 mg (100 pills). Professional athletes prefer Dianabol 20 mg for its effective properties.

A full-fledged Dianabol 20 solo cycle starts from 200 tablets. In this case, the cycle duration is up to 8 weeks. It is advisable to take this steroid, gradually increasing the dose from 20 mg per day to 50 mg.

per day. Take pills with meals, while drinking plenty of water. This gradual increase has a positive effect on the results. You can buy Dianabol supplements from our online store.
