Drug class: Corticosteroids. Clobetasol (Clobex, Olux, Clodan, Cormax, Temovate, Embeline) is an

inexpensive steroid used on the skin to treat itching, redness, and swelling caused by some skin conditions. This drug is slightly more popular than comparable drugs. It is available in multiple generic and brand versions. [click here.](#)

The cost of cortisone injections can be very costly depending on the procedure needed. I have recently received neck injections under X-ray, using an anesthesiologist and another MD. I was told the insurance claim filed would be in excess of \$5500 (the excess being the supplies and mediations administered in the procedure room).

Over 500000 cortisone injections are performed on patients in the UK every year for joint and tendon problems. Is the cost of cortisone injections worth it? Injections are covered by private insurance. For self-pay patients, Dr Masci offers a competitive rate starting at £250 for cortisone injections with ultrasound. So the cost of cortisone.
