Sustanon is one of the steroids that can be stacked with many other steroids including Dianabol and Deca to ensure faster results in the gym. A lot of bodybuilders actually opt for a Deca, Sustanon and Dianabol Cycle when bulking for a competition. Sustanon 250 Cycle PCT. Salut, Pour une première, 250 de susta et 200 de

deca me semblent suffisant. Tu durée de cure, 6 semaines, est trop courte avec le deca. Il faut au moins 10 semaines. Pour la relance, il te manque du nolvadex. 16 Mai 2013. 17. deca will take long time like a yr or little longer. Really only thing you can do is if you know when you are going to be tested to take one of those detoxs, but they are usually only good for a day or couple. If the test are random, then you are screwed. Prob best to take like prop, and short life orals. <https://nouvel-horizon.info/advert/vente-astralean-40-mcg-france-50-500-pills-alpha-pharma-xr2lix1a/>
