Without sufficient levels, many side effects are possible as testosterone influences dozens if not hundreds of functions in the human body. Each MIX by Pharmacom Labs is made as a stand-alone stack to achieve the best results. All of our mixes have an optimal ratio of active agents; in most cases there is no need to add any additional compound. 1. PHARMA NAN PH 100 (Nandrolone phenylpropionate) perfectly suits those seeking quality muscle bulk gain. It gets into work fast and combines well with boldenone and short form testosterones. Many athletes use the product to eliminate painful sensations in joints. With a half-life of around 2-3 days, it is relatively much faster form of PHARMA ...

A classical version of Sustanon® from Pharmacom Labs, PHARMA SUST 250 is a testosterone blend that contains four different testosterone esters. PHARMA SUST 250 is designed to provide a fast yet extended release of testosterone. ... Testosterone Phenylpropionate. PHARMA TEST E 250 Ampules. Testosterone Enanthate. PHARMA BOLD 300 ... PHARMA TEST E 300 (Testosterone Enanthate) is one of the best mass building anabolics known to man and is highly recommended as the base of any mass building cycle. Testosterone is responsible for promoting health and well-being through enhanced libido, energy, immunity, increased fat loss, gaining and maintaining lean muscle mass, preventing Osteoporosis (loss of bone density), and possible ...

All mixes developed by Pharmacom Labs

are based on testosterone in its different forms (esters). As you probably know, absolutely all exogenous hormones / steroids both oral and injectable ones inhibit the HPTA (hypothalamic-pituitary-testicular axis), which results in suppressing production of endogenous testosterone; being the primary man sexual hormone, it shall always present in a man body.
