Primobolan Depot (methenolone Enanthate) is produced by the Bayer brand. There are 1 Amps in a box and each vial has a dosage of 100 Mg. Many bodybuilders who know the effects and side effects in bodybuilding are used by men and women as an injectable steroid product. Steroids like Primobolan and Anavar carry very low virilization ratings making them perfect for female use. In a therapeutic setting, standard male Primobolan doses will fall in the 100-150mg per day range. Performance level doses will also fall in the same range. However, many men have reported decent results with as little as 50-75mg per day. Primobolan Depot 1 ml amp (100 mg/ml) Description and Uses. Primobolan is an injectable androgenic-anabolic steroid. It is the long acting injectable variant of Methenolone acetate with an active substance known as Methenolone enanthate. It is gradually eliminated from the injection site and has significantly long active-life period to produce ... PRIMOBOLAN DEPOT 100MG - PHARMAQO 1 vial x 10ml, 100 mg/ml . Customer Reviews.
