1. level 1. [deleted] 5 years ago. ED or EOD for test prop. My wife does 3 mg EOD. So that works out to a bit more than 10mg a week. That puts her test level in the range of 65-90 ng/dl trough to peak. Slightly suprphysiological, but she's been able to run that for nearly a year with no virilization. Test prop cycle. nsfw. Close. 6. Posted by 1 year ago. Archived. Test prop cycle. nsfw. Hi all, the wife is going to run a test prop cycle soon and I just want to gather some opinions on the protocol. Week 1-2: 1mg EOD. Week 3-4: 1mg ED.

For reference, I'm currently "cruising" on 10.5mg/week test prop and 50mg/week EQ sitting at about 138 lbs. I plan on keeping both the test and EQ on throughout for either primo or tren. Goal is to hit at least 150-155lbs, not 100% concerned about strength right now and really just want more size.

level 1. WalkswithLlamas. · 11m. I'm at a lower dose now, around 14mg divided, e3days. I use test cyp but it would best to start with prop. Pt-141 is also pretty amazing for libido. 1. level 1. heartcooksbrain1. [more help](#)

Hello, My s/o is currently running 21mg/week test along with 20mg/ED var. She handles these levels very well and has had previous cycles with test ran much higher (up to 50mg/wk). She has little to no "negative" side effects running 21mg/wk. She's about 6 weeks into her var cycle but only about 2 weeks into her current test cycle.

TESTOSTERONE ENANTHATE 15-30MG WEEK. STRENGTH - 6-7/10 - I think this is largely dose related but also because I'm comparing it to relatively strong orals I've taken in the past. Pumps were nothing crazy but strength always slightly increasing. PHYSIQUE - 6/10 - Overall I kept a lot of my off. Tren Ace cycle. Hey guys, I've been running some tren ace and winny for a couple weeks now and thought I would give a little update. Been taking 10mgs win tabs ED, and injecting 20mgs of tren ace EOD. I have seen girls run 10mgs ED but I don't like pinning every day. I was off everything for a couple months, strength plummeted (also been.
