Sustanon 250 is a clear pale yellow solution for injection containing the active ingredient testosterone in 4 (250 mg/ml) separate forms. The active substances of Sustanon 250 (see section 6 "What Sustanon 250 contains") are turned into testosterone by your body. Testosterone is a natural male hormone known as an androgen. Sustanon 250 is a clear pale yellow solution for injection containing the active ingredient testosterone in 4 (250 mg/ml) separate forms. The active substances of Sustanon 250 (see section 6 "What Sustanon 250 contains" are turned into testosterone by your body.

Description Sustanon 250mg/mL (Testosterone blend) When it comes to Sustanon's original intent, the idea was to create a testosterone compound comprised of varying sized esters that would allow for instant testosterone benefits that would be long lasting.

Dosages and Uses Most bodybuilders inject anywhere from 250mg to 1,500mg per week, with 500mg to 750mg being the most common dose. Some users feel they harness the full power of the propionate ester when they inject sustanon 250 every third day. This is not necessary, as weekly injections work fine.
