Test. Prop. 200mg/ml, No Pain!! I got some Test testosterone propionate made with EO, and it is so smooth. I never used testosterone propionate, but watched a few of my friends that did, and you could tell it hurt em. Sometimes only @ 100mg/ml and sometimes 50mg/ml. Now I need some Trenbolone A with EO, because this potent ass homemade shit is. Test prop 200mg a week. The action of its components achieves an increase in nitrogen retention and so the "absolute" anabolic state for the development of large and powerful muscles. Surely you're wondering if D-Bal produces the same results as Dianabol. Ur still sticking to 12.5eod for prop at 50mg eod . P.

I'm on 150 mg per week which is .75ml per week (from 200mg/ml test cyp) I take 0.11ml monday - friday and 0.10ml on saturday and sunday, all in the AM, after my morning cardio (an hour before I lift weights) I also take 0.15ml hcg Sub-Q daily with my T shot.

1-9: Test prop 700mg/week (100mg ED injections) 1-9: Aromasin 12,5mg ED 1-9: hCG 1000iu/week (mon-thu) why 9 weeks? Because I have five 25ml vials (50mg/ml). The day after last prop injection I'll start a blast of hCG for 10 days, 500iu ED and up the aromasin to 25mg ED.

Bloody test prop, have got through about 17ml or test prop 200mg/ml and has been killing me! Normaly the pain and swelling goes after a few days. I jabbed my left glute, which has been far more painful than normal, struggle to sit down or drive!

There are also crack top ampoules of testosterone propionate that are 100mg/ml. Meaning one single crack top ampoule contains 1ml of propionate at 100mg. You'll also find out there in the market or someone's basement a 10ml bottle that has 200mg/ml. Stay away from this for two reasons. [navigate to this website](#)
