WARNING: Cancer and Reproductive Harm - [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov). [consultant](#)

Testosterone cypionate (Depo-Testosterone) is an inexpensive drug used to support normal male development such as muscle growth, facial hair, and deep voice. This drug is more popular than comparable drugs. It is available in generic and brand versions. It is not covered by most Medicare and insurance plans, but manufacturer and pharmacy coupons can help offset the cost. Typically, the sig for these prescriptions is inject 200 mg (1 ml) IM every other week or 100 mg (0.5 ml) every week, with a quantity of 10 ml. A 10 ml vial will usually last someone between 4.5 to 5 months. My friend is saying that the patients are only able to get the 1 ml vials instead of the 10 ml vial, and was asking me what I think is.

TESTOSTERONE

CYPIONATE 200MG/ML 10ML VIAL. OVERVIEW AND HISTORY OF TESTOSTERONE CYPIONATE.
