In fact, when you get enough sterols and stanols in your diet, you can lower your total cholesterol by up to 10% and LDL cholesterol (the bad stuff) by up to 14%. They're a key addition to a. However, the average intake of these substances is less than 500 milligrams (mg) a day, which falls short of the amount needed to lower cholesterol. That's why many manufacturers fortify foods with phytosterols. The chart below lists common foods or dietary supplements fortified with sterols or stanol esters.
