Winstrol certainly isn't safe and is not suitable for beginners, whereas Anavar is often taken as a first time cycle. This is predominantly why Anavar is a lot more popular than Winstrol. Winstrol will cause a spike blood pressure, decrease testosterone production, cause stress to the liver, and put extra strain on the joints. Why Anavar Winstrol Cycle. Winstrol gives your body an enhanced ability to perform physical activities. This not only affects the bodybuilders in the gym but also the athlete's performance in a positive way. This enhanced physical performance is not given by Anavar. Hence a combination of the two is a great idea if you want to have an overall ... Anavar is also less hepatotoxic, and generally

makes a lot of users "FEEL" good while on it. Winstrol isn't extremely harsh, but it's certainly harsher than anavar. At the end of the day, they both have their uses. Reactions: stone988, DonQKong, Bigboy727 and 2 others. Mar 16, 2018. Winstrol Depot 3 Amp - Stanol-AQ 100 mg Winstrol Depot 3 Amp - Stanol-AQ 100 mg. Anavar Royal Pharma.
